

**Your  
unique  
interiors**

---

Dear architects,

We would like to offer you our services in creating atypical furniture according to your wants and dreams. We would like to invite you on a short excursion into our world. Into the world of wood, which inhabits and gives shape to extraordinary interiors. We were honored to be a part of them.

In this brochure, I will introduce you to the main benefits that I believe you will have thanks to cooperation with our manufacturing company. On the following pages you will find examples of our work. It is mainly atypical wooden furniture and interiors in hotels, restaurants, shops and private residences. And also, some information about our company and why you might be interested.
